Michigan Looking For Catchy Nickname For Promotion Reasons

MICHIGAN, like Maine, has had trouble adopting a catchy nickname to advertise its splendors and identify its citizens abroad.

For years, the name of "Michigan" has been used by some and considered an insult by others.

Now Robert G. Furlong, executive secretary of the Michigan Tourist Council, proposes "Michiganian," a choice he believes retains identification without any of the overtones of "gander."

Furlong hopes the "Michiganian" idea catches on better than similar attempts over the years. But Michigan's nickname troubles pale when Maine takes over the stage. There have been suggestions like "Maine" and "Mainers" and "Mainliners."

But what is more puckish than "Mainiac?"

A MILLION DOLLARS MAY be available for Michigan to develop educational television facilities within the state. According to Paul Lutz, chairman of the Working Committee on Education Television, there are several bills in Congress which will appropriate money to states willing to work up programs. The money, he emphasizes, is for the purchase of equipment, and there are no strings attached concerning the nature of the programs.

"In other words," he says, "there is no issue here of federal control of a state education system. Present plans, if the money becomes available, call for production of programs which would be used over existing commercial stations. These would mostly involve adult education, and would permit experts in many fields to supply information to the public at very little cost."

"Unexpectedly large audiences have developed for the few education programs already presented to the public, even though they are telecast at such weird hours as 7 a. m.," said Lutz. "If we can get this program going, the public stands to gain a great deal."

CIVIL RIGHTS is expected to become one of the top non-financial issues of the 1959 legislative session.

The state now has civil rights laws. There is also the Fair Employment Practice Commission with authority as a separate unit to negotiate disputes over discrimination in employment.

Democratic leaders want to merge them under a new Civil Rights Commission and expand the scope of both functions as they now exist.

One idea is to include age in the anti-discrimination system, along with race, creed, national origin and color.

The biggest fight is expected to be over the extension of powers to ban discrimination in schools, housing and other uncovered areas. Public accommodations, such as hotels and restaurants, are now included.

Most recent change came several years ago when a law was enacted making it illegal to discriminate against a tavern patron because of race, creed, color or national origin. If discrimination could be proved, the tavern could lose its license in court.

FEPC reports it has been successful in negotiations between employers and employees who have charged discrimination, despite the lack of powerful punishments to mete out to either.

EGGS FOR BREAKFAST can help you become an egg head.

That's one analysis of Dr. Al-

bert E. Heustis' suggestion that children can learn easier in school if they have a substantial breakfast.

The term describing the first meal of the day breaks down into "break fast," which Dr. Heustis, state health commissioner, says is actually the case.

Growing children are more likely to react to hunger and concentrate best when perfectly at ease with the world, well fed and comfortable.

MICHIGAN'S PIONEER "normal college" at Ypsilanti will come Eastman. The institution started as the state normal college years ago and recently had its name changed to Eastern Michigan College.

In three years, the state has developed from one publicly-supported university in Detroit to Michigan, to five though the institutions were here all the time.

Michigan State College attained university status to become the second one. The state took over Wayne University in Detroit to gain the third. Eastern Michigan at Ypsilanti and Central Michigan at Mt. Pleasant will be designated as universities beginning June 1.

Don't let "mishit" octane
waste another dollar of your money!

No 2 or 3 grades can possibly fit the different octane needs of all today's cars without wasting somebody's money.

The waiting is over and done with. When you pull up to your Sunoco dealer's Miracle Pump you get gasoline matched to your engine's octane needs exactly. You get big power without wasting money on octane your car doesn't need.

Because there are six Sunoco blends... 6 octane strengths... you can be sure of getting an exact octane-fit for your engine. And, each of Sunoco's blends is the finest quality fuel your money can buy! You'll enjoy instant getaway... surging passing power, and freedom from harmful engine deposits and spark plug fouling.

Arbitrary, Discriminatory, reasonable And Unfair"

Some time ago the Internal Revenue Service ruled the cost of institutional advertising placed by utilities in opposition to socialization of this industry was not deductible in computing federal income taxes. It thus ruled in effect, that the advertising was a legitimate business expense.

his attitude, it is important to note, did not meet the favor of the National Association of Railroad Utilities Commissioners — the organization which esents the "state regulatory bodies." In a formal resolution, it denounced the ruling as "arbitrary, discriminatory, unreasonable and unfair," adding that it presents a serious disservice to the state and federal agencies engaged in regulating the charges of such companies. It then resolved that the ruling should be rescinded and annulled.

Various individual state commissions have also pro-

tested. For instance, the Delaware commission, in a letter to the Federal Power Commission, defended, among other things, the right of utilities to use advertising "to seek support for the preservation and maintenance of the private enterprise system."

Internal Revenue seeks censorship on pain of heavy tax penalties. It is heartening that defenders of the right to speak one's mind are rallying to the cause.

How Long Will It Work?

Some politicians seek to curry public favor by advocating reduced income taxes for the low brackets. In the next breath they advocate higher state and federal gasoline taxes which for the low income taxpayer would probably mean an increase in his total tax load, as a car and gasoline are a necessity for the average worker to reach his job.

That's what you might call playing politics on a "heads I win, tails you lose" basis.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

March 26, 1936

The members of the Kiwanis club were fortunate in having as their guests Wednesday noon Coach Willard Cornell and first and second squad basketball teams. Eighteen boys of the green and white, together with their coach and faculty members Frank Bond and Cecil Roberts occupied nearly an entire table.

Emil Giegling welcomed the boys and the faculty men, which welcome was further extended by T. P. Peterson, president of the school board. Mr. Peterson complimented the team on their record and praised the sportsmanship of the members. Grayling team won the conference championship, having had 15 victories and no losses or ties. The team lost by one point in the district tournament. Coach Cornell and his boys certainly hung up a great season's record. But better still, according to Mr. Peterson, they established a reputation of good sportsmanship and clean young men whose presence was welcome everywhere.

Supt. Hans L. Peterson is happy over the fact that the long-hoped-for project of a new building for the trout hatchery has actually been started in construction. This will replace the hatchery that was built in 1914. The structure will be used for the hatching of trout fry and rearing them until they are ready for transplanting to the rearing ponds. The new structure will be 72 feet long and 58 feet wide. The cost will be approximately \$18,000, made available by the WPA. One-third of the cost will be borne by the State Conservation Department. Besides the new building the grounds will be beautified and there will be three rustic bridges, trees and shrubs will be planted and the rearing ponds sodded.

The Grayling Cubs, now playing under the name of the Hanson Cafe team, defeated Cheboygan in the finals by a 35-34 score for the Northern championship at Cheboygan Friday night.

Finally, after long years of effort to put through a plan for an east and west highway between Grayling and Harrisville, it looks as though it would be a certainty before the summer is over. A special session of the Board of Supervisors held at the courthouse last Friday afternoon, resolutions were adopted endorsing the taking over by the state of the route running from Grayling east to Oscoda and Harrisville, via the north side of the AuSable River. Another resolution urged the completion of an east and west highway from Harrisville to Oscoda, Grayling, Kalkaska and Traverse City. A large portion of this latter route is already a state highway and is in general use.

Tom and Fred Welsh are home from St. Johns Military Academy, Delaford, Wis., for the spring vacation.

Virginia Scott was hostess to ten friends at an Easter party Wednesday evening. Rolls, white cake and fruit were served. There was merrymaking with prizes for games being won by Janice Entminger and Virginia Peterson. A lovely lunch was served, with the decorations and favors carried out in Easter style. Virginia makes an excellent hostess and the girls report a very fine time.

The George Sampson family who lost their home by fire a short time ago were very fortunate in receiving many necessary articles of food, clothing and furniture at the shower which was given in their benefit Friday at the home of Mrs. Clarence Van Amburg.

Now that the basketball season is over the players are interested in knowing the total points of the games. Frederic High School has scored 382 points against 239 in receiving their opponents. Lewis Stillwagon is high point man for the team. Following is the record of the entire team: Lewis Stillwagon, 115; Clair Melroy 95; Shirley Corsaut 84; Clyde Looze 48; Nelson Vanner 14; Elmo Nephew 11; Ervin Duncley 8; Charles Horton 5. The last four players listed played quite a bit of Reserve team basketball during the first part of the season and scores made then are not included.

Mrs. Blanche Hull is driving a new Plymouth coach.

Complimenting Mrs. William LaGrow, Mrs. Hans Juhl entertained a group of her friends, on Friday evening. The ladies enjoyed playing games after which their hostess served them a delicious lunch. Mrs. LaGrow received many lovely gifts.

Miss Dorothy Roberts was hostess to the girls of the "Just Us" club at her home Monday evening. Nine members were in attendance and the girls spent a very pleasant evening. Lunch was daintily served in Easter style with the salad being very cleverly fashioned to represent an Easter bunny. The next meeting will be held at the home of Miss Evelyn Sorenson.

Shoppers' Inn and Annex are undergoing extensive redecoration, which are being carried out under the capable direction of Waldemar Jensen. The first story of the Annex is now being done in pastel shades, each room having a different color scheme. The hallways will be pretty, one being carried out in orchid and the other in warm shades of buff and cream. It is expected that all will be completed before the fishing season begins.

"It is written," familiar words from our Scriptures, and we find this thought among them, "First things first." Perhaps this is the church reporter's way to apologize for the absence of our weekly news items. Nevertheless, after a long time at church work, one's home work gets slack, and needs a little catching-up. I will be a little ahead of the "Clean-up week." Now that I have all this out of my system, I will endeavor to report. Everything has been going along fine. PRAISES HEARING AID

Lee de Forest, who made modern
radio and television possible through
his invention of the vacuum tube fifty
years ago, recently lavished high
praise on a revolutionary new hearing
device called "The Listener." "It is,"
Dr. de Forest said, "without question
the finest hearing aid I have ever
worn. Nothing compares with it for
the quality of hearing it gives."

Commenting further, Dr. de Forest
continued: "The advantage of ear-
level hearing and the elimination of
irritating clothing make 'The Listener'
a real pleasure to wear. In fact,
it overcomes all the objections I
previously had to wearing a hearing aid."

So great has been the interest in this
remarkable new electronic hearing

HOME AGENT'S NOTES

"Consumers Marketing In-
formation Cooperating with
County Extension Service"

It's just about that time! What
time? Egg-eating time! It hap-
pens every year but this year
larger laying flocks and more eggs
per bird have caused a higher pro-
duction than last year. This, too,
the birds of the year when a
larger proportion of older hens
are laying and the eggs fall into
the larger size classification.
There is, therefore, a greater
abundance of the large eggs and a
greater price advantage in the
large sizes.

"Have you thought of compar-
ing the price of a pound of eggs
with a pound of meat, when shop-
ping for protein ideas for your
meals? At today's prices a pound
of high quality protein in the form
of eggs will cost you about 33 to
35 cents. It will help you to re-
member, when comparing prices,
that a dozen large eggs will weigh
about 1½ pounds. And as you
compare egg sizes and figure the
cost per pound, large eggs are ac-
tually 2-5 cents less per pound
than the medium eggs.

So much for pricing. How
about quality? The grade of an
egg refers to its quality. An egg
is checked against a strong light
and graded—determining its fresh-
ness (by the position of the yolk)
and presence of blood or meat
spots. Grade AA and A eggs are
top quality. They are good for
all purposes but especially ap-
proved for frying, poaching and
boiling. Grade B and C are lower
grades than the A's but are fine
in cooked foods where flavor and
appearance are not so important.

A high quality egg, when bro-
ken out of the shell, will have a
firm, high, unbroken, well-cen-
tered yolk. The white will be
spread only over a very small
area. As an egg deteriorates, the
white becomes thin and watery,
the yolk is flat, enlarged and
breaks easily. Neither size nor
color has anything to do with egg
quality. Quality is based on the
interior condition of the egg, not
the size or color.

Two eggs, eaten any way you
like, supply as much as 30 per
cent of the essential daily protein
requirements for adults. Babies

and senior citizens, alike, can en-
joy eggs every day. They are
high on the list of essential foods.
Just a few words about cook-
ing eggs. Good cooks never boil
eggs. They know that hard cook-
ed eggs are easier to shell and will
have a clear yellow when cooked
in barely simmering water —
promptly cooled under cold run-
ning water. Too much heat makes
eggs tough and rubbery. Low
temperatures and the shortest
possible cooking time are the se-
crets in good quality egg cookery.

With the young fry clamoring
for colored eggs at Easter time
you will no doubt be hard-look-
ing a supply for their coloring
spree. An easy method is the
cold water method. Cover eggs
in pan with water to come at
least 1 inch above the eggs. Bring
rapidly to boiling. Turn off heat
and if necessary set pan off burn-
er to prevent further boiling.
Cover and let stand 15 minutes.
Cool promptly and thoroughly in
cold water. This makes the shells
easier to remove and helps pre-
vent dark surface on yolks. For
coloring you may want to omit
the cooling step. Eggs cook in
water under the boiling point.
Egg whites whip to larger vol-
ume when at room temperature
for about a half hour before use.
